

## School Council minutes

The school council have been discussing various issues, our meetings are every other week, and here are our minutes from our last meeting.

School council have been looking into what children have in their boxes. Most children have healthy lunch boxes, on the other hand some lunch boxes aren't as healthy as they should be. Some children from school council take turns to survey people's lunch boxes. Our last survey was on the 5<sup>th</sup> & 6<sup>th</sup> of March.

Many people have noticed the bridge in our playground has been transformed; it's now a friendship seat. Not every one is using it correctly. What should happen is, if some one has no one to play with, they will sit on the friendship seat. A peer mediator will come and play with them. Many people are just playing on it. As a conclusion Dan H. and Anna P. are going to make some signs for it.

Key stage one are crossing their boundaries at break time, they are in risk of getting hurt. What we are going to do is, station peer mediators on the boundaries to stop them from crossing. Another issue is when people play football their balls roll under the gate. Don't worry Miss Bertham has ordered some sponge balls that won't roll under the gate.
