

School Council

Issue: chalking on the playground.

Pros

It allows children to do work on the playground.
It's fun.
It keeps you healthy being outside.
You can do a lesson on the playground.

Cons

It looks scruffy and messy for visitors.
It spoils our playground.
It doesn't look good.
It's annoying when you get chalk on your shoes or when you sit down.
It's there in the morning so it gets school bags chalky.

Decision: Every one voted to not have chalk on the playground. Alternatives – we're having chalk boards put up for the children to use.

As in our Good Behaviour Policy, School council will see any child who gets a red card. They will be sent to school council, school council will talk to the person and give them advice on how to behave well. They will also work with Miss Bertham to decide on a punishment for that person's bad behaviour.

People are concerned about our bridge because there are nails and holes in it. Mr Titterton has done some immediate repairs. Don't worry because our bridge is going to be painted and there will be new planks of wood on it in the half term. Thank you Mr Titterton!
