

Eco Council Meeting

Date: October 2010

All new members of Eco council present.

Discussed what we should do to raise the profile of Eco friendly schools.

- More waste bins outside for fruit peel and waste paper.
- A litter clear up to remove windblown paper from our school grounds.

Action

Children did a 5 minute walk around the school to clear up any waste paper.

They decided that this should happen every month to keep our school clean and litter free.
