

ECO WARRIORS UNITE!!!!

CHALLENGE 2

What a shock it was to learn today on NewsBites that in 50 years time, half of our native Amphibians will become extinct if we do not take action now!!!! (Due to a skin disease, climate change and loss of habitat) Do we want to lose our lovely toads, frogs etc forever!!!!!! NO!!!!!!!!!!!!

Please research facts about toads and frogs so that we can establish some habitats for them later on in the year, around the school grounds.

Bring your research into school on Friday 24th October so we can make up an Action Plan!
