

We use the internet loads.
We use it for playing
games, for talking to our
friends, and even doing the
weekly shopping!

The internet can be useful,
but some things are not as
great as others...

e-safety
guide

Be safe on the internet!

5 TOP TIPS FOR CHAT

ROOM SAFETY

1.It's alright to talk to strangers on the internet, just do not give away any details.

2.Don't give your proper name, use a nickname.

3.You can tell people general things, like the name of a city, or county, but not things like a village, or school.

4.Don't arrange to meet people for real through the chat room.

5.Do not reply to any unpleasant messages that anyone may have sent you.

5 TOP TIPS FOR

E-MAIL SAFETY

1.Do not give your real address, round mine at 7:00 is safer.

2.Do not click on any unexplained attachments, they may have viruses in them.

3.Do not give any private details- even on e-mail.

4.Do not reply to any horrible e-mails.

5.Avoid spam and junk mail.

5 TOP TIPS FOR

TEXT SAFETY

1.If someone sends you a horrible text then save it and show an adult.

2.Do not give away your mobile number on the internet .

3.Delete any messages you get from strangers or save them to show an adult .

4.Chain messages are messages that tell you to forward them to other people-they are a form of bullying so delete them and tell an adult .

5.Do not waste your phone credit .
