

Dear Parents

Please help us to get free gardening equipment for the school with Morrisons Let's Grow.

What is Let's Grow?

The Morrisons Let's Grow campaign is an exciting new nationwide voucher reward scheme that aims to capture the imagination of Britain's children and teach them about the origins of food with practical lessons. They'll be given the inspiration to follow a healthier lifestyle by learning everything they need to grow fruit and vegetables in the school environment.

Collect vouchers for school gardening equipment

From 15th September until 6th November 2008, you and your family and friends can collect Morrisons Let's Grow reward vouchers from your local Morrisons store to hand in at school. You'll receive one voucher for every £10 you spend in-store at Morrisons.

The school can then redeem these vouchers for free gardening equipment; everything from seeds and spades, to composting bins and planters. You can find out more about Let's Grow and see the equipment on offer at www.morrisons.co.uk/letsgrow

How else will your children benefit?

Morrisons Let's Grow also provides the school with access to additional teaching resources that will help us to provide stimulating lessons for children at all key stages in a wide range of subjects.

Your support of Let's Grow will be much appreciated and beneficial to all our pupils.

We can't wait to get things growing.
