Dear Parents/Carers

Re: Infectious diseases

Please may we ask for your co-operation in an important matter?

The sibling of one of our pupils is receiving medical treatment for cancer which puts them at risk if they are exposed to infectious diseases (stomach bugs, measles, chickenpox, shingles, slapped cheek etc)

Please let us know immediately if your child or anyone in your household is suspected of having any of these conditions so that we can inform the family concerned.

The health and well-being of this child does depend on the co-operation of all parents and we hope you will help us support this family.

With many thanks

Mrs A Luke
Acting Head Teacher
