

# FAIRTRADE FARMING

This logo is awarded to products that guarantee that disadvantaged producers

- (1) receive a fair price for their product
- (2) guarantees a better standard of living
- (3) farming methods are sympathetic with the environment

So, how many fair-trade products can you find?

On your next trip to the supermarket with your family, make a list of all the different fair-trade products you can find.

As your next shopping trip may not be imminent, you have two weeks to complete this homework

Thanks for all the wonderful rainforest animals. They'll help make a very impressive display. We will take photos of the animals, and put these on the web site as soon as possible.
