

**Year 6 2010**  
**The Times, they need a-changin'**  
**Song 1**

*Sung to the tune of Bob Dylan's The Times, they are a-changin'*  
*Accompanied by Troy*

The air is polluted  
As the trees are shed  
The floods come closer  
Seas arise from the bed  
The animals are threatened  
As humans they dread  
The animals are killed,  
Sent to Beijing  
The line has been drawn  
Sign of nature on red  
For the times, they need a-changin'

Richard

For the ivory market  
Needs to stop now  
Give animals a chance  
To come back with a growl  
For poaching is wrong  
It needs stopping, but how?  
So come on  
The species need savin'  
They're gonna die  
We have to help out  
For the times, they need a-changin'

Luke and David

Come gather round people  
We've a problem to stop  
Kids get into trouble  
'Til they're caught by the cops  
Drinking 'til dawn  
Stealing from shops  
End it now  
And stop what they're doin'  
They're wasting our money  
Taking drugs till they drop  
For the times, they need a-changin'

Millie and Georgia

Why do we set traps  
Only to kill?  
We go out and shoot

Just for the thrill  
Wherever I go  
Cubs are poisoned and ill  
Animals' habitats  
That need saving  
Our animals are precious  
We must set the deal  
For the times, they need a-changin'

Tom B. and Tom H.

What has happened  
To young smiling faces  
They stay in their rooms  
With the new music crazes  
Staring at computers  
With minds lost in mazes  
The young is  
Rapidly agin'  
Their fightin' and drivin'  
In silly street races  
For the times, they need a-changin'

Troy and Zack
