

**Year 6 2010**  
**The Times, they need a-changin'**  
**Song 3**

*Sung to the tune of Bob Dylan's The Times, they are a-changin'*  
*Accompanied by Troy*

Come gather round people  
'cause we need to talk  
About the animals  
So that they can still walk  
Ivory being poached  
Dolphins being caught  
We've just one chance  
To get savin'  
The Earth's got a battle  
That has to be fought  
For the times, they need a-changin'

Rebecca and Meghan

Come listen my people  
From far and wide  
For swords are drawn  
And people have died  
Don't make the past, present  
For the happiness lied  
Think twice  
Countries are ragin'  
Put your swords in your sheath  
Forgive countries that cried  
For the times, they need a-changin'

Naomi

Come look at this people  
Just look what we've done  
We've created a world  
That's really not fun  
Let the animals go free  
To see the bright sun  
They're harmless  
And really need savin'  
Save the Earth and the animals  
Soon they'll be gone  
For the times, they need a-changin'

Lottie and Charlotte

Our British soldiers  
In Afghanistan  
Fighting to beat

The Taliban  
Ready to attack  
On the command  
In the barracks  
Where they are standing  
Their friends getting killed  
When shooting at a man  
For the times, they need a-changin'

Kieran

Technology is everywhere  
But should it be?  
We've Tom Toms, controllers  
And kids on PCs  
There's Blue Ray and Sega  
The Nintendo Wii  
It's ruining kids health  
And they're ragin'  
i-pods and laptops  
just don't let it be  
for the times, they need a-changin'

Ashley

come gather round people  
please do take a seat  
animals are dying  
and it's for their meat  
it needs to stop now  
we need to eat healthy wheat  
the creatures, they need a-savin'  
why hunt them? Why kill?  
This needs to be beat  
For the times, they need a-changin'

Abi and Hattie
